

Langkawi

Isles of Legends & Leisure

The Langkawi islands of Kedah almost need no introduction as they're already a worldwide attraction. An archipelago of 99 verdant islands in the sparkling Andaman Sea at the north of the Melaka Straits, the main island is a melange of quiet Malay villages, picturesque paddy fields and jungle-clad hills. Legends and history fill these isles, from ancient giants to the curse of a wronged maiden Mahsuri that ended only in the 1980s after seven generations. Whether you're looking for geological nature worth millions of years to outdoor adventures, or duty-free shopping to cultural ventures, Langkawi truly has it all.

MAP OF LANGKAWI

AIR HANGAT VILLAGE

This is truly a unique hot spring as it is salt water, not fresh water and this kind of natural salt water hot spring can be found in only three other countries in the world. The main attraction here is the three-tiered hot spring wells and jacuzzis amidst landscaped gardens, plus foot reflexology and a host of other cultural activities such as Malay dance, batik painting, kickboxing etc. A restaurant on-site serves great Malay-Asian cuisine.

PULAU DAYANG BUNTING (LAKE OF THE PREGNANT MAIDEN)

Malay legend has it that princess Mambang Sari and her husband Mat Teja lost their son, so they came to the lake to mourn, where she blessed the waters so that couples having difficulty conceiving should try swimming here. The lovely lake is cloistered on an island of the same name, Dayang Bunting in Malay, south of Langkawi proper and easily reached by boat or even jetski. Besides swimming, there's kayaking and boating, a foot-dipping fish pond and a lakeside jungle boardwalk down to the 'Miracle Border', a thin strip of rocky land that miraculously separates seawater from the freshwater lake.

ATMA ALAM BATIK ART VILLAGE

Billed as the birthplace of Langkawi's own local handmade batik founded by a Malaysian artist and a batik designer, this cultural centre is a treasure trove of arts and culture with a batik workshop, showroom and art gallery. Offering good quality yet affordable local handicraft products, Atma Alam also provides hands-on craft opportunities in batik-painting and getting to know the traditional Malaysian batik-making process.

FAIZY CRYSTAL GLASS BLOWING STUDIO

Langkawi is home to one of the best handcrafted glass artwork studios in Southeast Asia. Established in 2002, the studio's local artists under Mr. Faizy's direction create stunningly delicate and colourful crystal products entirely by hand. Watch the process where air is blown into a molten piece of glass to create a bubble that craftsmen mould into imaginative shapes in a time-consuming process at a furnace so hot of up to 1,400°C. But each beautiful one-off art piece in the showroom is worth all the effort.

LANGKAWI CRAFT COMPLEX

A popular place of interest in Langkawi, Kompleks Kraf is a one-stop centre that offers a variety of authentic craft products such as batik and hand-woven textiles, carvings, metallic crafts and much more. There are also many interesting activities including craft demonstrations, educational workshops, cultural performances and guided tours. Its attractive architecture and landscaping also make Langkawi Craft Complex a must-go destination.

EAGLE SQUARE

Probably Langkawi's single most recognisable symbol and a must-visit, Dataran Lang is the iconic landmark on the Kuah town waterfront visible from ferries plying in and out of the harbour. Reflecting the island's name from the old Malay 'lang' for eagle and 'kawi' for reddish brown, the large 12m high sculpture of a reddish brown eagle about-to-fly dominates the surroundings of landscaped ponds, fountains, shops and pavilions, and even beyond. The bare floor may get a bit hot at the height of day so come in the cool breezy morning or evening, while at night the eagle and its environs are gorgeously lit up.

LANGKAWI CROCODILE FARM

Learn all about tropical crocodiles in Malaysia's largest crocodile farm. Sprawling over 10 acres in a specially designed and beautifully landscaped zoological recreation park, Taman Buaya Langkawi hosts almost 1000 crocs of various species in dedicated ponds that mimic their natural environment. Visitors also get to witness live shows, crocodile feeding and at the research and development centre even the process of egg collection, incubation, rearing of hatchlings, animal husbandry and conservation measures.

CHOGM PARK

In October 1989 a working retreat for the 'Commonwealth Heads of Government Meeting' was held in Langkawi and this park commemorates the event. Delegates from all participating countries planted trees in the park and each is marked in this now lush, tree-filled garden with a man-made beach for great sunset views. Conveniently located in Kuah town beside Al-Hana Mosque, the Langkawi Fair Mall is also within walking distance for facilities and eateries.

LANGKAWI NATURE PARK (KILIM GEOFOREST PARK)

A marvelous nature park within a bigger geoforest; that's Langkawi Nature Park, a strategic enclave of Kilim Geoforest Park that in turn is within Langkawi Geopark and one of the best ecotourism spots in Southeast Asia. Enjoy boat rides to view the geoforest environment and experience walking on an 800m-long boardwalk through a natural dense mangrove jungle. Several species of birds fly freely in the aviary, and some of the birds and mammals will be led out for a close encounter with visitors during the animal show at a specially designed arena.

BERAS TERBAKAR (FIELD OF BURNT RICE)

This historic field marks the site of a true event in 1821. Mass rice burning was conducted by Padang Matsirat's villagers who scorched their rice paddy in an effort to stop them from falling into the hands of Siamese invaders who took over the island. Take time to reflect on the sacrifice of the locals and see the conserved area where the 'Beras Terbakar' or 'burnt rice' happened. Apparently, heavy rain sometimes raises evidence of burnt grains to the surface. Souvenir stalls and surrounding village paddy field views add to the attraction.

GALERIA PERDANA

An interesting gallery housed in attractive Malay-modern hybrid architecture, this museum showcases over 2,500 presents, awards and significant items received over 20 years by Malaysia's Prime Minister Tun Dr. Mahathir Mohamad and his family. The displays cover an astoundingly diverse collection of every imaginable gift from world governments, corporations and others; some of extremely high value so it is great to actually see rather than just read about these objects. It's also great that they're for public view rather than stored out of sight.

LAGENDA PARK

Known in Malay as Taman Lagenda or literally 'Park of Legends', this thoughtfully themed parkland covering 20 hectares showcases Langkawi's legends, myths and folklore from prehistory to historic events of more modern times. Established in 1996 next to Eagle Square in Kuah, the park lets visitors enjoy landscaped gardens while learning about various stories that are

intertwined with many of Langkawi's other attractions, such as the battle between two giants over a wedding argument who later turned into mounts Mat Chinchang and Gunung Raya, and the beautiful Mahsuri who was falsely charged with adultery and executed in the 1800s, or the story of the great birds, the ogres and more - 17 stories in all.

ORIENTAL VILLAGE

Lifestyle, especially tropical and oriental, is what this attractive village is all about. The whole village setting is laid out as a lifestyle themed neighbourhood in mixed Malay-Sino-Japanese architecture, centred around a large landscaped lake amidst a green hilly backdrop. A good variety of specialty shops, stalls and eateries vie for your attention with surprisingly diverse offerings from unique souvenirs to universal cuisines, and even a cute hotel. Oriental Village is also the starting point for the Langkawi Cable Car, amphibious Duck Tour plus animal attractions and much more, so it's worth allocating a day for the entire village complex.

BALAI SENI NEGARA LANGKAWI

This branch of the National Art Gallery (Langkawi) was established in March 2018. The Langkawi Art Gallery branch aims to promote the works of northern artists.

DREAM FOREST

At Dream Forest Langkawi, you'll experience an enchanting, multi-sensory and immersive adventure set in the lush tropical landscape of Langkawi's rainforest.

Gripping stories of Langkawi's epic myths and legends like Princess Dayang Bunting, Tun Teja, Merong Mahawangsa and the Giants of Langkawi come to life with interactive digital technology, illuminations, and ethereal soundscapes.

Explore Dream Forest with total footpath distance of 1.2km.

MAKAM MAHSURI (MAHSURI'S TOMB & CULTURAL CENTRE)

Much of modern Langkawi is tied to the legend of Mahsuri, the beautiful maiden who lived on the island about 200 years ago. She was falsely charged with adultery and upon her execution she bled white blood, a sign of innocence, and cursed the island for seven generations. The Siamese invaded soon after and Langkawi wilted. Indeed it was only in the 1980s after seven generations that the islands prospered again as it does today. This multi-faceted cultural centre revolves around Mahsuri's tomb site, with traditional Malay houses, a museum complex telling the story and much more.

LANGKAWI WILDLIFE PARK

This pleasant family-activity destination first opened in 2002 as Langkawi Bird Paradise with many avian species. Over the years many more other animal types were added especially mammals and reptiles, and it was renamed Langkawi Wildlife Park in 2006. Now there are colourful birds, cute mammals, scary reptiles and even exotic orchids. While many of the animals are of the 'less-dangerous' kind, they are nonetheless amazing and from all over the world with much 'close encounter', photo-taking and even feeding opportunities, plus there are excellent guides; all of which make the place perfect for kids. It is also fully covered, thus rain or shine you can enjoy an entire visit. Note the schedule to experience specific events and feeding times.

MORAC ADVENTURE PARK (GO-KARTING)

As Malaysia's premier international karting centre, this is where you get your adrenaline rush on the 1.5km world standard karting track. Drivers' lap times are precisely recorded and sent straight to participants' smartphones to compare your rank against other drivers. The Park is professionally operated and conforms to the sport's global safety standards. If your lap timing is truly exceptional, you may even compete for a chance to race at the Sodi world series. Hot Laps, the appropriately named restaurant on-site offers local and international dishes plus a full service bar to quench those racing thirsts.

LANGKAWI CABLE CAR

One of the most thrilling and unforgettable cable car rides, and indeed the steepest, in the world is right here. The ride up mount Machinchang from Oriental Village takes you to a height of 708m in almost 15 minutes and gives breathtaking views of the mountains, valleys, the Andaman Sea and islands all the way to Thailand on a clear day.

There are viewing platforms and pleasant side activities at the top but the grand highlight is Langkawi Skybridge, a spectacular curved single-pylon suspension bridge and one of the greatest feats of engineering.

Nestled on peak of the Middle Station is a new attraction named Eagle's Nest SkyWalk emulating an Eagle head looking over the Nest. The new attraction is located 650 meters from sea level, structured on a 38 meter free standing cantilever glass platform which at one time can be accommodate about 300 people with an equivalent of 21 tons.

ROYAL LANGKAWI YACHT CLUB

For yacht and premium boat owners the Royal Langkawi Yacht Club is no stranger, being Malaysia's only award-winning marina with the best facilities and luxuries. Located on the ocean-side southeast corner of Langkawi, the 250-berth marina accommodates up to 90m-long mega-yachts. Kuah town centre is just 2km or

a few minutes drive away for convenient access to duty-free shops, banks and other urban amenities. There's also the excellent Royal Langkawi Yacht Club Hotel as well as Fisherman's Wharf alongside. The famous Royal Langkawi International Regatta has its home base here.

01 GEO TRAIL

Langkawi's entire archipelago of 99 islands has been designated a UNESCO Global Geopark, the first in Southeast Asia, and one of only 147 worldwide, to date. It is divided into three Langkawi Geoforest Parks, described below. For more information, visit langkawigeopark.com.my.

1 Machinchang Cambrian Geoforest Park

The Machinchang mountain range forms a spectacular landscape, whose rock formations are estimated to be over 550 million years old—among the oldest on Earth. It is also home to probably the oldest rainforest on the planet.

In addition to numerous mountain trails, ML Machinchang can be accessed by SkyCab, the steepest, and one of the longest free-span cable car rides in the world.

2 Kilim Karst Geoforest Park

Explore a pristine wonderland of limestone formations—pinnacles, cliffs, outcrops and caves—in a rich mangrove network of rivers and mudflats. Discover ancient fossil beds, abundant marine life, and the home of the island's famous sea eagles and brahminy kites.

3 Dayang Bunting Marble Geoforest Park

Located 15 minutes by boat from Kuah, Dayang Bunting is the archipelago's second largest island. Its most prominent feature is

a large freshwater lake surrounded by thickly forested hills.

4 Kubang Badak BioGeo Trail

Walk an elevated platform over a mangrove swamp and observe a magical panorama of untamed forest, sea, mountain, and the ruins of a historical Siamese charcoal factory.

5 Geosite Tours

Langkawi's three UNESCO Geoforest Parks contain 38 individual geosites (and still counting!), which comprise areas of unique geological, biological or paleontological interest. Contact any of the parks or visit the website for a map of individual geosites. Tours are also available.
